

Dear Resident,

It is my great honour and pleasure to stand as the Prospective Parliamentary Candidate for Reform UK in the general election for Farnham and Bordon.

In our new constituency we all have a choice to make on 4th July – either our constituency will be represented by one of the old legacy parties or we can take the opportunity to start afresh with strong representation from Reform UK.

The main parties all represent the same approaches – ever higher taxes, financially crippling environmentalism, mismanagement of public services and above all a recurring failure to deliver on promise after promise made to the British public.

As a former Conservative councillor for Town and Borough I am now of the view that both the Liberals and the Conservatives are no longer either liberal or conservative. Which is why I am now standing for Reform UK, to support a return to common sense politics that normal people can relate to. Reform UK is about change, about reconnecting with residents and responding to *their* concerns rather than hiding behind party politics. Reform UK offers an opportunity to change the shape of British politics, to focus in on our residents locally and our wider country nationally.

Reform UK stands for:

- **Lower Real Taxes** for People and Businesses - raising tax thresholds and scrapping VAT on energy bills.
- **Cutting NHS Waiting Lists** and giving 20% tax relief for those who choose to pay for private healthcare.
- **Ending Net Zero** and building back our energy infrastructure.
- **Preventing Schools** from teaching woke and contested ideologies to our children.
- **Freezing Legal Migration** and decisive action against illegal immigration.

Our detailed and costed policies can be found here: <https://www.reformparty.uk/our-contract-contents>

So, on the 4th of July please give Reform UK your support – We are standing because we want to see real change in how our country is governed and hold to account the legacy parties who have proved time after time that they can no longer be trusted.

Best Regards,

Ged Hall
